

Tell Your Family's Story!

In 2021, Angel Island Immigration Station Foundation and Angel Island State Park installed an exhibit entitled *Taken From Their Families*.

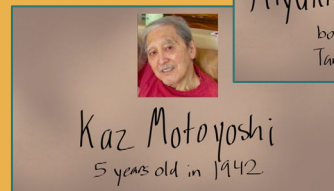

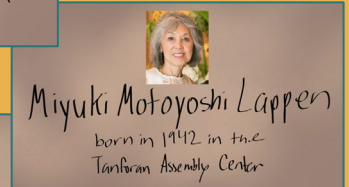

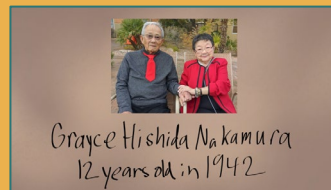

The exhibit highlights the stories of several Japanese Americans from Hawai'i and the West Coast who were unjustly incarcerated at Angel Island before being sent to other Department of Justice sites.

We Are Looking For:

- Descendants of Japanese Americans who were incarcerated at Angel Island during WWII

We Are Providing (At No Cost):

- An opportunity to connect with a group of other community members in a brief online storytelling workshop
- The chance to reflect on and uplift your family's story by writing and narrating a brief script
- AIISF staff will work with you to incorporate your family photos and video clips into a 3-to-5 minute video for potential inclusion in an upcoming online exhibit
- See https://youtu.be/KLakOWs5_5Y for an example. (Note that these next set of videos will not be animated.)
- You will receive a digital copy of the final video product
